Comprising the true

Health Restoring Bitters,

PULMONARY ELIXER,

AND

Strengthening Plaster.

TRIED and proved by their continued use for the last fifty years to be superior to any other preparations for the cure of every species of disease dependant upon

Impurities of the Blood, Derangement of the Stomach, Bowels and Liver, and all affections of the Lungs, Air Passages and Throat, as also Pain in the Bones, Joints Side and Back, Rheumatism, Weak Stomach Cramp, &c.

None genuine unless signed on the wrapper, Stephen Jewett & Co. with a pen to whom direct all orders.

Prepared by STEPHEN JEWETT son of the late Dr. STEPHEN JEWETT of Rindge N. H.

Principal Office,—No. 30, India Street, Boston.

Please read the following certificate of a highly respectable aged gentleman

RINDGE, N. H. April 1 1848

To all whom it may concern

I the undersigned do hereby certify, that I was acquainted with the late Dr. Stephen Jewett from my boyhood up to the time of his death and having been his nearest neighbour can testify to his medical skill and knowledge of Botany with hundreds of others now living, and that in the year 1841 I was afflicted with palpitation of the heart pain in the side and general debility so as to be *unable to attend to any business* and being a neighbour of the late Dr. Stephen Jewett I had recourse to his Far famed *Bitters* and *Plaster* and by their use was perfectly cured. So cured the above named date I have used Dr. Jewett's medicines with equally good effect a prepared by Stephen Jewett son of the late Dr. Stephen Jewett of Rindge N. H., and I cheerfully recommend them to the public as safe and invaluable medicines and being composed entirely of vegetables I think them far better suited to the diseases of our climate than medicines composed of minerals or foreign nostrums. Try them, and judge from facts and experience. I consider Dr. Stephen Jewett's Strengthening Plaster far superior to any external application for the pain so for which it is recommended of any that I have ever known.

EBENEZER BLAKE

DR. STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters, acting as they do upon the Stomach Liver and Bowels removing all the morbid secretions thereby purifying the blood and invigorating the digestive organs not only cure diseases that already exist but they also fortify the system against all diseases. It is a common remark among those who have used Dr. Jewett's Bitters that they feel as if free of being sick. The remark is strictly true, for while the stomach and bowels are kept in a good condition and the blood pure all the great predisposing causes are removed and the whole system is fortified against those morbific influences which under less favorable circumstances would have engendered perhaps total ruin.

In order that the public may know that they are offered a truly excellent article we append the following certificate which may be seen with numerous others in their original by calling on the proprietor.

BOSTON May 15 1848

To all whom it may concern—This may certify that I have been for years troubled with a scrofulous humour which has been very troublesome and was fast undermining my health and had severe pain in the back loss of appetite languor and general debility.

A short time since I commenced taking Dr Jewett's Health Restoring Bitters, and have every short time humour so pains left me my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett's Health Restoring Bitters.

(MRS.) E. H. RUSSELL, Beach Street

DR. STEPHEN JEWETT'S

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases of the Lungs and Chest. Why is this great sacrifice of human life? How happens it that the brightest intellects of the highest promise the hope and support of declining years are smitten down in early life? Why is it that so many families have been made desolate by that fell destroyer, Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases, the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you these diseases can be cured—if taken in season.

It is true these diseases can be cured with almost absolute certainty—if taken in season. Everybody should be aware of this fact and provide themselves with Dr Jewett's Pulmonary Elixer.

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates.

WINCHENDON Mass March 10, 1840

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally, to inform you all who may have been afflicted as I have, that I have been entirely cured of a severe and long continued cough by one bottle of your Pulmonary Elixer—For months I have been a great sufferer. I had pain in my left side, sore throat, constant cough, and raised a good deal of bad looking matter. My strength was gone, and my flesh was wasting away. I took many things without benefit and was steadily getting worse, till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all who are troubled with coughs.

Yours truly

THOS CUMMINGS

DR. STEPHEN JEWETT'S

Strengthening Plaster.

These Plasters possess the property of *removing Pain curing Lameness Cramp Pain or Weakness in the Back Joints or Side, Rheumatism, Weak Stomach, &c.*, and when used in connection with the Bitters in Liver Diseases will prove very beneficial in removing the peculiar pain between the shoulders and in the side and back, well known to those suffering with such diseases. This Plaster from the quantity and quality given is vastly cheaper than and superior to the "Poor Man's" or any other Plasters, and can be made any size wanted, without waste. One roll will make five good sized Plasters. A single trial will be all the certificate necessary.

By application at this office inventors are saved the trouble of expense of a journey to Washington and delay there as well as the personal trouble in obtaining the patents. They also have the advantage of the *Library* in this city which contains a great deal of valuable information relating to them. *Inventors generally are apt to make mistakes in their specifications and claims.* The experience of seventeen years in practice an extensive collection of rare works relating to the mechanical objects the Patent Laws and patents of different countries collected at much expense during the last twenty years, the facilities afforded by a residence at Washington and the intercourse with the Patent Office have been instrumental in securing to many inventors a degree of success which cannot be reasonably expected by those who are without these advantages. Inventors desirous of procuring Patents are assured that no information which in other respects might be difficult of attainment will be withheld.

British Periodical Literature.

REPUBLICATION OF

The London Quarterly Review,

The Edinburgh Review,

The North British Review,

The Westminster Review,

—AND—

Blackwood's Edinburgh Magazine

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs they stand far in advance of any works of a similar character published in the English language, or in fact in any work of a purely literary character.

They embrace the views of the three great parties in England—Tory Whig and Radical—"Blackwood" and the London Quarterly are Tory, the Edinburgh Review Whig, and the Westminster Review Radical. The North British Review is the exponent of the religious character of the Free Church party, being conducted by Chalmers and now, since his death, being conducted by his son in law Dr. Hanna assisted by Sir David Brewster. Its literary character is of the very highest order. The Westminster though *republished* under that title only is published in England under the title of the "Foreign Quarterly and Westminster" and being in fact a union of the two Reviews. Formerly published and reprinted under a pirate title. It has, therefore the advantage by this combination of uniting in one work the best features of both as heretofore issued.

The above Periodicals are reprinted in New York, in the neatest manner and by the Best Printers in a beautiful clear type on fine white paper and are faithful copies of the original Blackwood's Magazine being an exact *facsimile* of the Edinburgh Edition.

CLUBBING.

Four copies of any or all the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis.

EARLY COPIES.

Our late arrangement with the British publishers of Blackwood's Magazine secures to us early sheets of that work by which we are enabled to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals. For this and other advantages secured to our subscribers we pay a large annual premium and are now compelled to raise the price of the Magazine.

Increased value of gold—Immense Emigration to the Gold Regions—2,000,000 Exported to England.

NEW YORK April 2 1 P M

The Herald has six weeks later intelligence from California The dates from San Francisco are to February 7th

After a severe winter pleasant weather had set in Prices of gold had risen in consequence of large arrivals of specie from San Blas Valparaiso, &c which had been placed in the hands of the merchants of San Francisco for investment.

The whole of Lower California was deserted by the male inhabitants, who had gone north to the placers Seven hundred persons had arrived at San Francisco from Valparaiso and four hundred from the Sandwich Islands There were about seven thousand persons ready to commence operations as soon as the weather would permit

The prices of provisions were more moderate

There had been no arrivals from the United States The sloop-of war S. Marys was the only national vessel at San Francisco

The waste in refining the gold obtained at the dry diggings did not average more than two per cent On that from the wet diggings was two to three and one half per cent

At Mazatlan the gold sold for fifteen dollars per ounce and the proceeds put on board any vessel free of charge

The Herald says after a careful calculation we are assured that about four millions of dollars has been obtained from the mines

The country was quiet and peaceable

No Oregon gold had been seen in California

The gold in the hands of the merchants of San Francisco, was held for the purpose of making remittances by the steamship California, or to take advantage of the market

The British sloop-of war Calypso was at Mazatlan, soon to leave for England She would take over 2 000 000 worth of gold Of this amount there was over five thousand ounces of California gold, one thousand ounces of which belonged to the bearer of those advices He put it on board this vessel because he could not obtain a conveyance direct to the United States —Pel Boston Journal

Grand Balloon Ascension

In accordance with his promise to the public, Mons Victor Verdelle yesterday made an ascension from the corner of St Charles and Poydras streets He arose from the ground in fine style suspended from the balloon by the feet, and while going up he performed many gymnastic feats, to the great amusement of the crowd The daring aerial voyager, however, did not long enjoy his triumph, as a collapse took place when he was over the Third Municipality, at a height of about one thousand feet, and he came down with a rush, Every one who saw him when his rapid descent commenced, supposed, as a matter of course, that he would be dashed to pieces and his escape from death was almost miraculous He landed in the Third Municipality, and strange to say received no injury

THE IRISH REBEL GIRL.

From Holden's Magazine

'A very original affair' said I, laying down the Tribune of that day

'What is that?' asked my companion

I refer to that scene in the trial of Smith O Brien, when Dobbyn the Irish Detective is proved a perjurer by the unexpected testimony of Mr D Alton All the circumstances connected with the affair—the visit of D Alton at the Freeman Office the hasty and successful measures instantly taken to bring him into court, the crushing power of D Alton's testimony, and the complete unmasking of Dobbyn —would seem to make the whole as an interference by Providence, if all these things had not so unaccountably failed in the great result

The gentleman to whom I said this, was a gray headed refugee from Ireland since the great rebellion in 'Ninety Eight He paused a few moments and then replied in a voice, trembling with age and strong feeling

'I dare not trust myself to speak of the trial of O Brien, for it reminds me of the days of Fitzgerald and Emmet But there is one incident of those times, which I can mention with more calmness Your remarks suggested it — I will tell you of a providential interference, this time successful, in a trial of somewhat similar character The actors were obscure and now are forgotten by all except the few who then stood in the court room and saw the heroism of a poor servant girl, trampling upon her own love for the sake of truth and justice in the cause of Ireland They never can forget it All that I could not at that time understand in the affair, I afterwards learned by inquiry of others—so strong was the interest that humble heroine made within me

Late on Hallowmas Eve, a young man and girl were sitting together in the servant's room of an Irish country seat The latter was a fair and buxom lass, known far and near as pretty Mary Donovan She had an honest face too, where the very heart seemed looking forth and one for whose real nobleness a man might pledge his life At this moment it was clouded with anxiety and timid love

Very near her, sat a young man with one of those false, handsome faces that we occasionally meet, and always look upon a second time His glossy hair was elaborately curled, and his eye hard and bright, like yet was marked with sincerity His whole appearance was, as I have just said, handsome and false Had the young girl whom he was so earnestly addressing, been a physiognomist, she would never have listened to his words, and as it was, her whole manner was wavering, distrustful, yet tender

'Phelim, you know that I love you, and oh' that I could trust ye too If I could shut my eyes while ye talk to me, I'd wait no longer but give ye the word at once, but whenever I look in your eye, you seem to be talking only with your lips, and so I turn away from the face I should love to look upon

'I understand ye, Mary Donovan, said Phelim bitterly, 'and because the face I was born with doesn't suit ye, you think I am trying to cheat It's no use to fool around ye any longer I'll go to the mountains and join the fighting Boys to-morrow

'Not because I send you there' exclaimed Mary hastily 'Dear Phelim forgive me, and I'll never vex ye again'

A glow, not of shame, passed over his face, as he saw the effect of his words in this the first sign of triumph, and he persevered so cleverly that in a few moments they were betrothed, and he had won the first ripe kiss from her dainty lips Then followed the interchange of love tokens, usual among the Irish peasantry They could only exchange looks of hair for they had nothing else to give

'Write on the paper around it the date of the blessed night, Phelim, and it will be twice as precious to me'

So he did, and Mary placed it carefully next to her heart

Then they began to talk of more serious matters Both were poor, but hopeful, and ready to wait for some sudden turn of good fortune, which they fondly dreamed might come at any time This discussion of ways, means, and all impracticable projects carried them far into the night, so far indeed, that Phelim, lover though he really was, yawned sleepily as he took his candle, saying

'Good night, Mary dear, and don't forget Hallowmas Eve

Ah Phelim,' she replied, I'll remember it long enough for us both'

So she did

The next day brought tidings to the inmates of——Hall, that a large body of peasants had risen during the past night, and committed excesses, too common in those times of apprehension and resistance Nor did they end with that night's work What is known in history as the 'Rebellion of Ninety Eight,' speedily broke out and for months kept the land in most fearful agitation At last, the rebellion was crushed, and then commenced the trials of those leaders who had been captured All crowded to the court to see their first men brought to trial and condemned, almost invariably, to death One of these leaders was of great notoriety in the vicinity of ——Hall, and when his case was called from the docket, every man woman and child, flocked to the place of trial—some to sympathise with the caged patriot, some to exult over his fall, and very many to see the man whose name had been held up as a word of equal terror to refractory children and full grown men

'Mary said her lover, as he saw her arrayed in rustic finery, 'surely, ye're not going to the court to day

'Indeed I am, she replied, I'll go and give the poor prisoner a blessing with my eye since I can do nothing else for him Why should I stay away, when a man is to be tried for his life, because he loved us too well? Surely we must go and say to him by our presence, that we are with him in our Irish hearts

'It's no place for women I tell ye, exclaimed Phelim, with sudden violence, and then coaxingly 'Indeed you must not go Stay at home and think of what I'm telling ye, that I've got fifty golden guineas, and we can be married next week, or as soon as you'll only say the word

'Fifty guineas in real gold' Who gave them to ye—was it the master or—

'Hush Hear the master's own voice calling me now, so I must go' Stay at home Mary or I'll not forgive ye

'I don't understand ye, Phelim, and I will go to the court, said Mary to herself 'Fifty guineas of bright and heavy gold—blessings on the giver'

In opening the case the prosecuting attorney was observed to look anxiously around the court, as if in search of some particular face — Each time he was disappointed, and at last was obliged to announce, that in the absence of its principal witness the Crown would first resort to other evidence And meagre enough was that evidence to all in the crowded court Every thing manifestedly depended upon the principal witness, the Informer, and without his speedy appearance, the prisoner would doubtless be entitled to an acquittal At last, the Crown officer finished his other evidence, and again peered anxiously about the court. This time his face lighted with satisfaction

'Phelim Reeney

'Phelim' cried a faint, smothered voice upon the opposite side of the room

Silence there in the court' shouted the Sheriff angrily

But there was no silence in Mary Donovan's heart

I see it now—those fifty golden guineas! Ah, they have made Phelim Reeney an *Informer*, but they shall never make me his wife

The informer felt the moist, yet flashing eye of Mary Donovan, burning into his brain, and he shivered with terror, but the voice of the prosecuting attorney soon restored self possession, and he coolly testified as follows

He had disguised himself, and joined the rebels in their great meeting on the night of the first rising He had especially marked the prisoner at the bar as the seeming leader, and the one under whose direction the whole body acted He heard this prisoner utter words, and saw him do acts of treason on that night This was the substance of his testimony and so clear, full, and direct was it through, that every one saw that the prisoner's life was hanging on the words from this Informer of every thing, and found that he had done full justice to his training

The first question on the cross examination was in regard to the time of this affair Phelim appeared somewhat uneasy, and replied in a very low tone

'Louder' cried one of the judges

'It was the night before the rising—Hallowmas Eve

'No' it was *not* on Hallowmas Eve' exclaimed Mary Donovan rising with an uncontrollable impulse Phelim' you are not even an Informer—you are prejured'

There was dead silence for one instant, and then the prisoner's counsel spoke sharply

'What's this Let that girl come to the witness stand'

Pale, but not trembling, she took the place where Phelim had just stood

'You say it was not on Hallowmas Eve—tell all you know

She fixed her eyes on her lover, and kept them there steadily until she had finished No one questioned or interrupted her in the course of her broken testimony

'Never would I be standing in this place, your Honors, if the false oath and black wish had not come from the lips of Phelim Reeney Never would I open my mouth to condemn the man I love best, if he himself had not compelled me to do it —

'This man was once my lover, before he sold his country, and me too with it And the very night that he first spoke his false words to me without check, was this same Hallowmas Eve, when he swears he was up the mountains disguised as one of the band of that prisoner at the bar

We talked till two in the night—do ye deny it? Look then at this, which I take from my bosom for the last time—this lock of your hair, wrapped in a paper—and yo've written on that paper, these words with yer own hand,

Phelim Reeney
to
Mary Donovan,
11 o'clock, Hallowmas Eve

Take the paper and the hair, Sir—I will never come into my hand again

'Is it the shaking of that guilty man's hand as good proof of my oath? Ah, Phelim, I see now where the fifty guineas came from, but did ye think at the time what ye gave in exchange for that bribe?

This is all that I know, and oh' it is too much for me to say' for it strikes down the man I love Phelim, why did you do all this? An hour ago, and worlds would't have tempted ye to exchange places with that man at the bar, but now there's nothing ye would'nt give to be this prisoner yourself Ye'll be despised and cut off from among men, but never can even you feel more misery than I shall find all my weary life, for I loved you Phelim, and ye've broken my heart

The old gentleman stopped here, but his eyes were eloquent as he mused

'Well' said I inquiringly

'In the course of a long life,' he continued, 'I have often heard the outpouring of true genius but never did I see such eloquence, as there was in the eye of that servant girl, when she faced her lover and made him a criminal Even the hard eyed Judges were softened by the sight'

'What became of her?'

'Ah' this is a true incident, and you must not expect the ending of a novel. The prisoner was acquitted of crime Reeney suffered the penalty of his crime, while Mary Donovan retired again to her service, forgotten and unknown Had Ireland then attained her independence, you would have long since seen her name written in the annals of that desperate strife, and not have heard of her now, only through a chance sister by an aged wanderer from this own unhappy land.'

Editors of Newspapers.

In this country no labor is so poorly rewarded as that of writing for the public press It is a mystery to us why this is so In most cases here an editor realizes but enough to secure the necessaries of life, and if he happen to be blest with a family his whole life is an unceasing struggle to keep above water The idea of ever reaching a competency is chimerical too preposterous to be entertained for a moment

Even in the distribution of Office by political parties we notice that a preference is given, in nine cases out of ten, to some tavern orator, over the more capable, more consistent, and a thousand times more influential editor of a newspaper This should not be, and editors owe it to themselves to see that the evil is corrected If Presidents and cabinets do not know better a lesson or two read by the press at large should teach them wisdom

RHEUMATISM

This is only one among hundreds of cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by this extraordinary virtue

Jam & Cummings, Lockport N Y, under date state the Lunatic Asylum Blackwell's Island, speaks of it in the following terms

Blackwell's Island Sept 14 1847

Dr Townsend—Dear Sir I have sold your Sarsaparilla for nine years with the Rheumatism cases details at the time I could not eat, sleep or walk I had the most distressing pains See my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am as sound as a dollar—I feel I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours very truly,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend having tested his Sarsaparilla in cases of Fits, of course never recommended it and was surprised on receiving the following letter from a truly good and respectable Firm in New York City

Fordham August 13 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits, we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and we very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness Prolapsus Uteri or Falling of the Womb, Costiveness, Piles Leucorrhea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the effects of the Mercurial poison, which is the great cause of Barrenness—It will not be expected of us, in this as in other delicate matters, to exhibit certificates of the cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases which for years have been without the blessing of a family have within this invaluable medicine been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

Nothing relaxed Sarsaparilla has the exclusively prepared in reference to female complaints No female who has reason to suppose she may be in a critical period *The turn of life* should not venture without it, as it is a certain preventative for one of the most sad and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using Townsend's* Not is it less valuable for those who are approaching women hood as it tends to strengthen the system by quickening the blood and invigorating the system Indeed those diseases invaluable for all the delicate diseases to which women are subject

It braces the whole system renews permanently the natural energies—by removing the impurities of the body so as to stimulate, so to produce subsequent relaxation—which is the case of most medicines taken for firmness which is not disease By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficacious medicine for purifying the system and relieving the sufferings attendant upon child birth ever introduced It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—is Costiveness Cramps Swelling of the Feet, Depository Diarrhoea, Vomiting, Pain in the Back or Loins, False Pains, Hemorrhoids and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalks, and a variety of preparations generally in use when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin unfitted by the silks used in some, results in its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire, but none can describe. This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paints and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of delete ous mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla. Thousands who have tried it, are now then satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

These that use Dr. Townsend's Sarsaparilla have invariably called their sisters *a great remedy for females*, &c, &c, and have adopted our Bills and circulars which relate to the complaints of women, proof for ourselves who use pat up medicines have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c, are injurious to females, as they aggravate disease, and make the case incurable

DISEASES CURED.

This Christian Sarsaparilla is a fact this Sarsaparilla has perfect control over that disease

cases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with it for a long time, taken only four bottles; it took them away, for which I feel myself under great obligation. Yours respectfully,

ISAAC W CRAIN 106 Wooster st

REMARKABLE CURES

upon record, and has acquired a reputation which time alone can tell. Physicians of unbounded skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are thus all over the universe

EMINENT LAWYER,

and well known in this city says "My son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract I know it and shall feel right to be sounded to the ends of the earth" As the word Language is entirely inadequate to express my gratitude to Dr Hart for having been the humble instrument of God, of restoring my long ill health after having been afflicted with Epilepsy in its worst form for more than twenty three years, and my morning and evening prayers of thanks and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole"

Mrs J Trudley, 115 Orchard street New York states that she has been subject to Fits for many years, and has been restored to perfect health (of every other trouble) by the use of the Vegetable Extract

Dr Chas A Brown of Dover Rose Bud Alabama who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Seaver Esq of Philadelphia, afflicted with Epileptic Fits for twenty seven years and six months—After travelling through England Scotland Germany and France, consulting the most eminent physicians and expending hundreds of dollars, received no benefit and advice from the most eminent physicians in this country in November last, we built receiving any benefit we left, and we cured by using

HART'S VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with him, which I did I first visited England I consulted the most eminent physicians in respect to his case, they examined him and prescribed accordingly I continued here three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians, and the most that I received was their opinion that my son's case was incurable, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland Germany and France, and returned home in the month of November with my son as far from being cured as when I left I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH

His reason which was so long gone is unfit him for business is entirely restored, with the prospect now before him of life, health and usefulness He is now 28 years of age and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases, but thank God I know enjoying good health

Now sir, faith without works I don't believe in—To my friend I will be ever grateful to you in one thing, and as I have enclosed you one hundred dollars I have no doubt you will thank this another and quite a different thing The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours very respectfully

(Signed) WILLIAM SEAVER.

The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analogous complaints, is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union, during the last 30 years His only reason for introducing the Paste in this public manner, is the consciousness that there are thousands of all treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks

Dr D most solemnly affirms that during his practice of forty years, this Paste has never, in one single instance, failed of effecting a cure in a few days, without any change of diet or hindrance from business He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged, entirely cured

If the unfortunate instead of dragging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be paid to the purchaser on returning the empty boxes.

Put up only by the original inventor and sole proprietor, Dr. PETER G DOUGLASS, at his Office, No. 55 Union street, Boston, at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we are in no quackery we are always glad to give credit to that which is truly useful, and to give all information which may benefit others A few days ago a brother of ours, from Norway, Me, came to see our office in comfortable health, whom we did not expect to see in our city We received a letter a few weeks since from another brother resident in the house with him saying that he was confined to his bed and could not probably continue but a short time Judge then of our surprise when we saw him on our office He has a slight cough remaining, as it would be natural that he should have until he has had further time for acquiring strength in lungs But he is in comfortable health The following letter which he addresses to the general Box on Agent for the medicine which it is restored him so wonderfully, tells you what medicine has been the instrument of the good work

Boston Feb 16 1847

McKENNEY'S COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores Rheumatism, Swelling of the Feet and Legs, Swelling of the Joints in Sore Throat Ulcerated Eruptions of the Skin and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains Stiff Neck Chilblains or Chapped hands Sore or Inflamed Breast, Weakness or Pain in the Stomach Piles, Cuts Warts and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public we are aware that we labor under an small disadvantage amidst the multitude of "All-Healing Ointments and Panaceas that are now advertised to the *most credulous and credulous* for all diseases and enormously to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the sale of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon, has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty puffing of the *Press*, or the bought certificates of individuals, and shall make use of them only so far as they have been or hereafter may be entirely *voluntary* and *unsolicited*

The Salve is now before the Public

They and they alone will decide upon its real virtues and medicinal properties To say less, were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates —

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenney, and continued its application until I had used six bottles, which entirely cured me, and I have had no return of the disease since I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 14 oz of JONATH S McKENNEY'S SALVE, which effected an entire cure in less than two months SIMEON MARSTON

Gray, May 11, 1846

BANGOR, June 5, 1846

Mr McKenney.—In going into the woods in the autumn of 1845, with the charge of quite a number of men, for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises; and I found indeed, to my great satisfaction, that it was an invaluable article. I also made application of it in cases of Cuts, Sprains, and Bruises upon my cattle, and found it equally beneficial It can truly be called the All-Healing Salve
